The Post Graduate Medical Education Committee requires that all candidates interested in pursuing post graduate medical education training at the University of Manitoba, attend a formal interview where they have an opportunity to meet with members of the Section of Infectious Diseases but also meet with individuals external to the Section.

Our policy is to offer an opportunity for candidates seriously interested in this program to come for an elective rotation and/or an interview with our faculty and our current fellows. This gives us an opportunity to meet with you and for you to review our program and interact with our trainees and attending staff.

If you have any further questions, please do not hesitate to contact me. Once again, thank you very much for your interest in our program.
